

# Oeness

風がふいた  
窓の棧から落ちたのは何？  
何度も君の瞳をフラッシュバック  
遠くに紫の光  
近づくほどに赤みを増す

まるで夜の海  
泳ぎ回る星たちの海面  
吐く息は膨らみを増し  
吸い込まれていく元いた世界に  
この魂もつながるように  
ふたり

形のない  
名前も距離もない  
あるのは流れと意図だけ  
ふたつをつなぐ  
重さのない海

違いのない  
軽さも時もない  
気体に昇華するように  
ひとつに溶けあい  
あるのは本質  
光

# Oneness

The wind blew  
Something blown off the window sill  
A memory of your eyes flood in my mind  
And stayed there long  
Then I saw the purple light in distance,  
Approaching me with turning into red

Next moment  
I was in the night sea  
Stars sparkled around  
I made bubbles  
And watched it expanding through,  
The way it traveled to the water surface  
Or its origin  
Should I send my soul there, too?  
And let it unite with yours

No shape  
No name  
No distance  
There are only vibration and will  
Zero gravity Ocean  
Unites two

No distinction  
No separation  
No time concept  
Bodies are not substantial anymore  
As if they have sublimated  
Become one  
Left is only Sprit  
The Light
